UNIMOG VIDEOS ON WEBSITE

Atkinson Vos are taking their website to the next level!!
We have started to add videos to our Unimog stocklist to give our customers a better idea of a machine without even being here!
We hope to have a videos on the website for each Unimog in stock so keep checking back. Its a bit weather dependant so it may take some time!! The Unimogs that do have videos have the words 'View Video' underneath their stock picture. Click on the words and the video will load up. Check out the videos we have done so far at our stocklist page.

WE'RE ON YOUTUBE!

We're so proud of our new video skills that we have our own page on YouTube! We have uploaded our videos so far onto here for all to see. If you have any videos of your own that you would like us to add to our page, please let me know.
Our channel name is 'AtkinsonVosUnimogs' so go and subscribe to our page at <http://www.youtube.com/>

A HIVE OF ACTIVITY

Our workshop has been consistently busy over the past month. In the picture you can see customers Unimogs from as far afield as Dorset, Northumberland, and Kent. The blue U1500 is sold to a customer in Wales for roadside tree maintenance. We are also in the early stages of the renovation of this 1966 U900 "F" type for a long-standing customer. It is the first Unimog he owned and he still holds it in very high esteem!
Our Unimog spares and accessories have been flying/sailing to all sorts of places recently including Greece, Spain, Portugal, USA, Australia and Japan!

WORKSHOP NEWS

We are sorry to announce that Michael our workshop supervisor has left. Michael has a strong grounding in agricultural machinery and has chosen to pursue his career as a mechanic working on this equipment. We are all sorry to see him go and are sure that you would join us in wishing him every success in the future.

MR ROTOVATOR (sorry!!)

Here's another pic sent in from one of our USA customers. Dorn is based in New Hampshire and runs a U1200. This autumn he's been running a Howard Rotovator which is fitted to the front and he's also been running a Brillion seeder on the back.

A LOVELY BUNCH OF UNIMOGS

These 3 lovely Unimogs belong to a customers of ours based in Belgium. From left to right there is a U2150L, U600 double cab (one of seven made!) and a U900 which is now undergoing a full restoration. All are used for fun and the U2150 Doka will be used in North Africa for holidays.

That's all for this month!
Thanks!
Emma
