UNIMOGS WOODCHIPPERS TRAILERS WORKSHOP SPARES ACCESSORIES

First of all I would like to apologise for my lack of communication to you guys over the past few weeks. What with weather, holidays and being very busy here, time has just disappeared! To make up for it, I've packed plenty into this newsletter to get your teeth into and I'll be back next month with even more Unimog news!

TIMBER TRAILERS UP & RUNNING

Our new timber trailers website is now up and running!

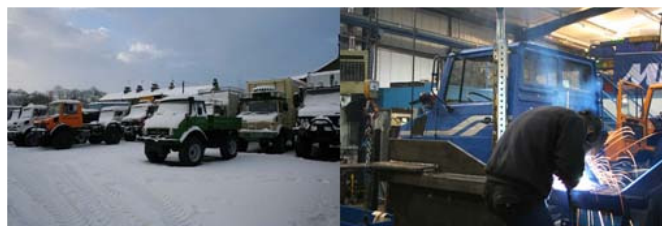

We have had a lot of interest regarding our new range of Timber Dragon timber trailers which is great to see. The website provides people with individual specification sheets for each trailer with technical drawings and load diagrams. You can get to the site through our Unimogs, chippers or tyres websites or go direct to www.timber-dragon.com. If you are interested in our trailers or the cranes themselves, please call us on 015242 62922 or email simon@timber-dragon.com

THE FIRST OF MANY

Our first timber trailer sold within days of being in stock and here is it all loaded ready to go along with a couple of lovely orange Unimogs making their way to various destinations. [Click here to read more.](#)

SNOW & A BIT OF WELDING!

What a perfect snowy picture! For the first couple of days anyway and then I think we can all agree it started to drive us a bit mad! It's been a bit warmer in the workshop recently as we have taken on quite a bit of welding work! Visit our newsletter for more info.

MB TRAC MAD!

Here's a MB Trac 900 arriving at its new home in Germany after a long trip from our yard in Bentham.

The new owner has quite a collection of MB Tracs already and has set up a brilliant site for all you MB Trac fans. Check it out at www.trac-technik.de

UNIMOG CORNER

First up is this lovely U1100L owned by Totally Trees. Perfect vehicle for a ride in the snow!
Visit our website for more info.

Next is this 416 that has been converted into a rather interesting looking camper!
Visit www.samog.co.za to see more weird and wonderful conversions including a 416 that can carry up to 22 people!

This U900 is being lovingly restored at a garage down in London. There's quite a bit of work involved but it'll be back terrorising the streets of London in no time!
Read more about this mog at our newsletter.

Last but not least is this U1300L carrying quite a load! It was up in our workshop recently have a bit of T.L.C. to keep it up to scratch! Click here to go to our newsletter.

Well that's all from me this month!

Thanks,
Emma
