WORKSHOP

Hello all!

Well Spring is in the air! We finally have some long awaited sunshine and the daffodils are blooming! Lovely!

We are very busy here which is always a good thing! The workshop has been jam packed this month with various customers machines in and sold machines being worked on.

PROJECT WELL ON ITS WAY

I'm sure a lot of you will remember this Unimog U2150 L38 we had in our yard a few months ago. It was one of the most expensive mogs I think we have had in our yard and created a lot of interest. We sold the Unimog in January and it was shipped over to Belgium. [Click here to see how the project is going so far.](#)

A LONG JOURNEY AHEAD

Adam and Chloe recently bought this U1300L camper to go on an expedition from London to China! The Unimog has been in our workshop having some work done to make it ready for its long journey ahead. [Click here to read more.](#)

BUSY, BUSY, BUSY

It's great to be able to write again that we are jam packed in the workshop as you can see! We have various Unimogs in at the moment belonging to customers and recently sold machines. Some are in for routine repairs, some are having our Unimog accessories fitted and some are in for a full service.

To find out what treatment they are all in for, please [click here.](#)

EXPANDING THE FLEET

*This U1250 belongs to Thrift Wood Tree Services. He bought this Unimog from us back in September 2006 and as you can see, it is an excellent asset to the company.
Thrift Wood have recently added to their fleet a bigger more powerful Unimog which is currently being worked on in our workshop as we speak.
For more details, please click here.*

*If you fancy upgrading your Unimog or adding another to your fleet, please visit our stocklist.
We update it as soon as we get something new in so its definitely worth adding to your favourites list!*

Well that's all from me this month!

*Thanks,
Emma*
