ITS FINISHED!!

*Here it is. After a few months of hard work, the U2150L38 unimog is all finished
and it looks really good and is sure to bring a lot of customers to the yard!*

NEXT BATCH OF TC1 TIMBER TRAILERS ON THEIR WAY

*We have ordered the next batch of the very popular TC1 Timber Dragon Timber Trailers which are due
to land in early July. We have a waiting list already so if you are interested, please give us a call.
If they go as fast as they did last time, they won't be around for too long!*

FULL YARD

Our yard was at full capacity the other week when we had a container to load with a Unimog for Sydney, Australia and another trailer load of Unimogs brought in to sell.

TO ME, TO YOU! TO ME, TO YOU!

That's one way of getting a Unimog off the back of a wagon! This Unimog was loaded on the back of a trailer that was on the back of the artic trailer so the only way to get it off was to use the crane.

NOW THAT'S A TRANSFORMATION!

This U900 has been lovingly restored by its owner. Every little detail has been taken into consideration from the very start to the very end and it looks great!

VERY VERSATILE

Ready and waiting to make the drive down to Wiltshire, this Unimog U2150L38 has the biggest chipbody on the back we have ever made. Its going to be quite the multi-purpose vehicle.

300 MILES ON A FRIDAY AFTERNOON - NO PROBLEM!

These two likely Essex lads came up to look at our used Unimogs, and after a quick look round, ended up buying our cheap U1200 and drove it back home without a problem.

Told you it had been a busy month!!

See you next time!
Emma
