UNIMOGS TIMBER TRAILERS WOOD CHIPPERS SPARES ACCESSORIES WORKSHOP

Welcome to the Atkinson Vos August 2010 Newsletter.

We have quite a lot of big news this month so lets crack on!

LOOKING GOOD!

Atkinson Vos Ltd has grown in leaps and bounds over its 27 years in business. We have a worldwide customer base which is growing by the day thanks to our excellent customer service and experience and knowledge in Unimogs. As of the 1st September 2010 we will celebrate our 28th year and what better way to celebrate than with a new, fresh look! So here it is! We are currently working on updating all our company stationary, brochures, etc. and we hope you all like it and agree its a step forward.

WE ARE MOBILE!

We now provide a mobile mechanic service for customers who are just that little bit too far away to be able to bring their Unimog to us which we know can be costly and takes time. We are now able to bring our tools, expertise and knowledge to your doorstep meaning problems can be diagnosed quickly, fixed to a high standard and all with minimal downtime for the Unimog. [Click here for more details.](#)

APF SHOW 2010

We are busy getting ready for the up and coming APF show which will be on the 23rd - 25th September at Cannock Chase in Staffordshire. For more details on what we have planned for the show, please [click here](#).

BRAKED TIMBER TRAILER

As you know, we recently became dealers in the Timber Dragon Timber Trailers. These trailers come to us unbraked and we have been working hard converting the TC1 model into an off-road braked version and we have one up and ready.

MOG TO MEXICO

Here is a very happy customer just receiveing his long awaited Unimog in Mexico. The flag was specially bought to welcome the Unimog to its new home! The U900 has been bought as a project and is going to be rebuilt and restored by its new owners. You can view the video of when the Unimog landed in Mexico and was freed from its container by [clicking here](#).

MOG FOR DRILLING

This U2150L Unimog is also making a long journey. It will be joining a U1100 Unimog in Ethiopia in drilling operations on a salt flat in the Ogaden Basin. For more details, visit our newsletter.

*Thats all from me for this month!
Thanks!
Emma*
