UNIMOGS TIMBER TRAILERS WOOD CHIPPERS SPARES ACCESSORIES WORKSHOP

Hello all!

Another very busy month at Atkinson Vos and we are all looking forward to a couple of bank holidays at the end of April! Just to note, we will be closed on the 22nd, 25th and 29th of April and the 2nd May 2011.

COMING SOON

We are adding again to our wide range of Unimog accessories!

We will soon have in stock, our heavy duty rear springs for U400/U500 Unimogs.

The price will be £350 + VAT per spring so if you own a U400/U500, please give us a call and we will get you a pair out as soon as they land! For more information on our heavy duty springs or any other of our accessories, please visit the accessories page on our website.

INTERCOOLER BONANZA!

While we are on the theme of improving your Unimog with our range of accessories, we currently have 3 Unimogs in our workshop which are all fitted with our intercooler kits! The kits can increase power, fuel economy and give greater torque amongst many other benefits for the Unimog. For more details please [click here](#).

BLACK BEAUTY

This Unimog has been transformed thanks to our range of Unimog accessories! It has been used this winter as a snow plough and can push through 3' of snow! [Click here for more details.](#)

THAT'S A LOG AND A HALF!

Here are some pictures given to us by an existing customer of ours who owns a number of Unimogs including this U1250 which is fitted with an Atlas crane. Together with the crane on his lorry, they lifted this 11 ton tree which is going to become a sculpture in the National trust forest .

ACROSS THE POND

Here is a U1200 which belongs to an existing customer of ours based in Maine, USA. The Unimog is used for a number of jobs including handling and moving logs. In the winter it is used as a snowblower. Our customer loves being able to use it both on and off road as its a real advantage. If you are an overseas customer and are interested in buying a Unimog or if you have one and would like some spares or accessories, we ship worldwide on a daily basis so send us an email or give us a call.

TIME FOR A CHANGE

This U1600 with radio controlled Hiab 060-3 fitted on the back is loaded onto this pretty impressive looking truck (check out the artwork on the cab!) and is heading down to an existing customer of ours in Anglesey. Click through to our newsletter for more details on its new job.

A LONG DRIVE AHEAD

Last but by no means least is this U1300L Unimog camper. We brokered this camper for a customer and it was bought by a chap in South Africa. After a spell in our workshop, here it is, ready and raring to go on its long drive! Visit our newsletter for more details.

Well, that's more than enough from me this month!

Hope you all have a lovely Easter and look forward to speaking to you soon!

*Thanks,
Emma*
